Summary:

Frontend Developer with experience in building e-commerce web applications using React and TypeScript. I create adaptive and user-friendly interfaces, implement complex functionality (drag & drop, Google Maps integration), integrate backend APIs, and participate in database design. Responsible, fast learner, and passionate about clean, maintainable code.

Skills:

JavaScript, Typescript, React, NextJs, React-Redux (thunk, toolkit), HTML5/CSS, SASS, Bootstrap, MUI, Tailwind CSS, Rest-API, Node.js, Nest.js, Next.js, Express, MongoDB, Mongoose, MySQL, Prisma, PostgreSQL, SQL, Docker, Unit Testing (Jest)

Experience: Frontend Developer (Internship) – Attractor School

 February 2025 – May 2025

Project: E-commerce website “Nezabudka”

- Developed the client-side of an e-commerce website using React, TypeScript, Redux Toolkit
 - Implemented user registration, login, and password recovery functionalities
 - Created user dashboards for customers and admins with profile editing features
 - Developed drag & drop product carousel and integrated Google Maps
 - Participated in database design (PostgreSQL, Prisma) and integrated with backend built on NestJS
 - Built responsive layouts and UI using MUI
 - Took part in meetings with the client and project demonstrations
-

Education:

- **Accounting and Auditing**, MAUPF (International Academy of Management, Law, Finance and Business) (2020 – 2024)
 - **Frontend (Fullstack) JavaScript Developer**, Attractor School (March 2024 – May 2025)
-

Languages:

- **Russian:** Native
 - **English:** Reading technical documentation and tutorials; basic technical communication
-

Additional:

Previously managed my own confectionery business: team organization, client relations, and brand development. This experience developed a high level of responsibility, self-management, and customer focus.
